MVGR College of Engineering

Voice Agent Knowledge Base 03 — Courses, Academics, Departments & Placements

Programs Offered — 2026

Program	Intake
B.Tech CSE	300
B.Tech CSE (AI & ML)	240
B.Tech CSE (Data Science)	60
B.Tech CSE (IoT & Cyber Security including Blockchain)	60
B.Tech Computer Science & IT	120
B.Tech ECE	180
B.Tech Mechanical	120
B.Tech EEE	60
B.Tech Chemical	60
B.Tech Civil	60
M.Tech Structural Engineering	18
MBA	60

Academic Model

- MVGR describes itself as an autonomous institution.
- The autonomous page describes curriculum flexibility, core electives, interdisciplinary options and industry-oriented curriculum.
- Choice Based Credit System (CBCS) is described on the official autonomous page.
- The official courses page publishes curriculum/regulations and 2026-27 academic calendars.

Academic Calendar & Exams

MVGR publishes academic calendars and examination notifications. A 2026-27 calendar for the 2023 admitted B.Tech batch lists instruction periods, mid exams, end exams and project viva dates. Because dates vary by batch and semester, the agent must identify the student's batch/semester before answering an exam-date question.

Department Knowledge

- CSE: official department page provides department contacts and academic/technical information.
- ECE: official page lists intake 180 and describes laboratories, department library, certification courses, clubs, training and R&D.;
- EEE: official page describes power electronics, control systems, power and energy, AI, embedded systems and VLSI; it lists an eight-semester four-year EEE program.
- Mechanical: official page lists intake 120, 11 teaching labs and 2 research labs.
- Civil: official page lists intake 60, 9 physical labs and an M.Tech Structures program.
- Chemical: official page describes industry-oriented training, process simulation, AI/ML and sustainability-related areas.
- Data Engineering: official page describes AI/ML, Data Science and IoT & Cyber Security including Blockchain programs.

Placements

The current MVGR homepage advertises a 2026 placement highlight of 764 job offers from 122 companies (60 IT and 62 Core), with selected offer examples. A separate official Join MVGR page reports 2025 achievements of 810 job offers for 975 eligible students across 77 companies and an average package of ■5.2 lakh. These are different reporting periods and must never be combined. The agent should always state the year/reporting period when quoting placement statistics.

Placement Process

- The official Training & Placement Policy defines campus recruitment, placement committee, job registration form, pre-placement talk and on-campus/off-campus placements.
- The policy states objectives including recruitment preparation, employability training, a transparent recruitment process and alignment with industry requirements.
- For current company drives, eligibility and registration, the agent should retrieve the latest T&P; notification/policy.

FAQ

Q: How many CSE seats are there?

A: The current Join MVGR admissions page lists 300 seats for B.Tech CSE.

Q: Does MVGR offer AI and ML?

A: Yes. The current admissions page lists B.Tech CSE with AI and Machine Learning, with an intake of 240.

Q: Does MVGR offer Data Science?

A: Yes. The current admissions page lists B.Tech CSE Data Science with an intake of 60.

Q: Does MVGR offer IoT and Cyber Security?

A: Yes. The current admissions page lists CSE IoT and Cyber Security including Blockchain Technology, with an intake of 60.

Q: How do I know my exam dates?

A: Identify the student's batch and semester, then retrieve the matching official academic calendar or exam notification.

Q: What are the latest placement numbers?

A: The current homepage shows 764 job offers from 122 companies for its 2026 placement highlight. The agent should state that reporting period and should not present it as a guarantee.
